Our Mission Statement:

To continue Renton's legacy of philanthropy and leadership by cultivating the next generation of community leaders through relationship building and civic engagement.

Goals:

- Facilitate building the next generation of community leaders through education, experience and access.
- Increase flow of charitable dollars to areas of need in Renton.
- Create a vigorous network of emerging professionals, leaders and philanthropists to strengthen the Renton Community.
- Provide Renton Non-Profits with an educated and engaged candidate pool for board positions, corporate sponsorships, mentorship, donations and volunteers.

What does it take to support my community and join The Next Curve?

It's easy! With a minimum annual contribution of only **\$250.00** (monthly payments accepted) you can become a part of the future of philanthropy in the Renton Community. As an off-shoot from the Renton Community Foundation, we will accept your donations through a link on our website. Pooling our donations enables us to have a bigger impact! Each year members will collectively decide how to disburse our total amount to community organizations.

Great reasons to participate:

Access to a local network of professionals and community leaders committed to the success of the Renton Community.

Build and gain general awareness of the political and philanthropic landscape and needs of our community.

Build long-term relationships with a core group of peers.

Bi-monthly events are being scheduled and we invite you to become involved. Check our website for updates!
